

Colchester's Weekly Town News
For the Week of July 28, 2014

While by no means a total representation of all the work performed by the Town, the following information highlights some activities which occurred:

Town Manager's Office—Dawn Francis, Town Manager

The Colchester Parks and Recreation Department and Triathlon Committee attempted to host their 30th annual triathlon this past Sunday. For the first time in 30 years, the triathlon was canceled after a rain delay and potentially dangerous weather; a disappointment to all. However, the feedback we're receiving from the athletes remains positive, as they express their gratitude to the volunteers for their guidance before the race, during the delay and eventual cancellation, as well as during the thunderstorm flurry. The triathlon attracts around 450 participants. It involves 100 volunteers, our emergency protection services and several days of set-up and take-down. Given the circumstances, I dare say even more effort and time was put into our race due to the cancellation. We all should be proud of our performance in keeping athletes, spectators and fellow volunteers safe and, furthermore, that no accidents or injuries occurred. We are deeply appreciative of all the individuals involved and the committee and the staff who all work so very hard every year on this popular event.

We have experienced two armed robberies in our community in recent weeks. Thank you to our Colchester Police Department for their hard work in keeping our community safe.

Planning and Zoning Department—Sarah Hadd, Director

The Department of Planning and Zoning is pleased to announce that we have entered into a Delegation Agreement with the State of Vermont for administration of the new State Shoreland Regulations. As of July 22nd, the Town entered into an agreement with the Agency of Natural Resources that requires the Town to administer all permits for the Shoreland as well as report construction to the State annually. As the Town's regulations were found to be "functionally equivalent" to the State's regulations, Colchester will only need apply its existing regulations. What this means is those persons applying for a permit to construct within 250 feet of Lake Champlain now need to obtain a permit from the Town of Colchester only, the same as prior to July 1st. We are happy to be the first delegated community in the State.

The Planning Commission met on July 15th and forwarded Supplement 35 of the Zoning Regulations to the Select Board for consideration at a first reading in August. These proposed changes originated with a request from a property owner that larger signage be allowed for the Water Tower Hill Business Park. Several other minor housekeeping changes are proposed as well to allow for entertainment such as pool tables in bars. For the full text of the proposed changes please visit our website.

The Development Review Board met on July 23rd and approved:

- 1) a site plan and conditional use application of Neil Gardner to convert the residence at 76 West Lakeshore Drive to a three unit extended stay hotel
- 2) a variance application of Ronald Roberge to raise the existing dwelling at 2081 Colchester Point Road out of the Floodplain
- 3) a two-lot subdivision of Burlington Hotel Propco LLC at 38 Lower Mountain View Drive (Hampton Inn site)
- 4) a site plan and conditional use application of Myers/William Rathe Road Lot 2B LLC for 69,200 sq. ft. of mini-storage and outside storage on an undeveloped lot on Rathe Road. The Board also considered a sketch plan of Elizabeth Mack and Elizabeth Collins for a seven unit Planned Unit Development on an undeveloped lot on Roosevelt Highway (Munson flats area). The next Board meeting will be August 27th.
