

# Base Map for the Malletts Bay Study Area

This map was compiled for the Malletts Bay Recreation Resources Management Plan prepared for the Town of Colchester and the Lake Champlain Basin Program by T.J. Boyle & Associates, Associates in Rural Development, Inc. Resource Systems Group, and Engineering Ventures, Inc.

The map was compiled from numerous sources at a variety of scales with a variety of positional and classification accuracies. Please refer to the accompanying report for specific information on each data layer and its sources. This map is intended for general inventory and planning purposes only. For site specific data, additional field work may be necessary. No warranty is implied as to the accuracy or precision of these data or their suitability for a particular use. ARD is not responsible for subsequent use of the data or this map.

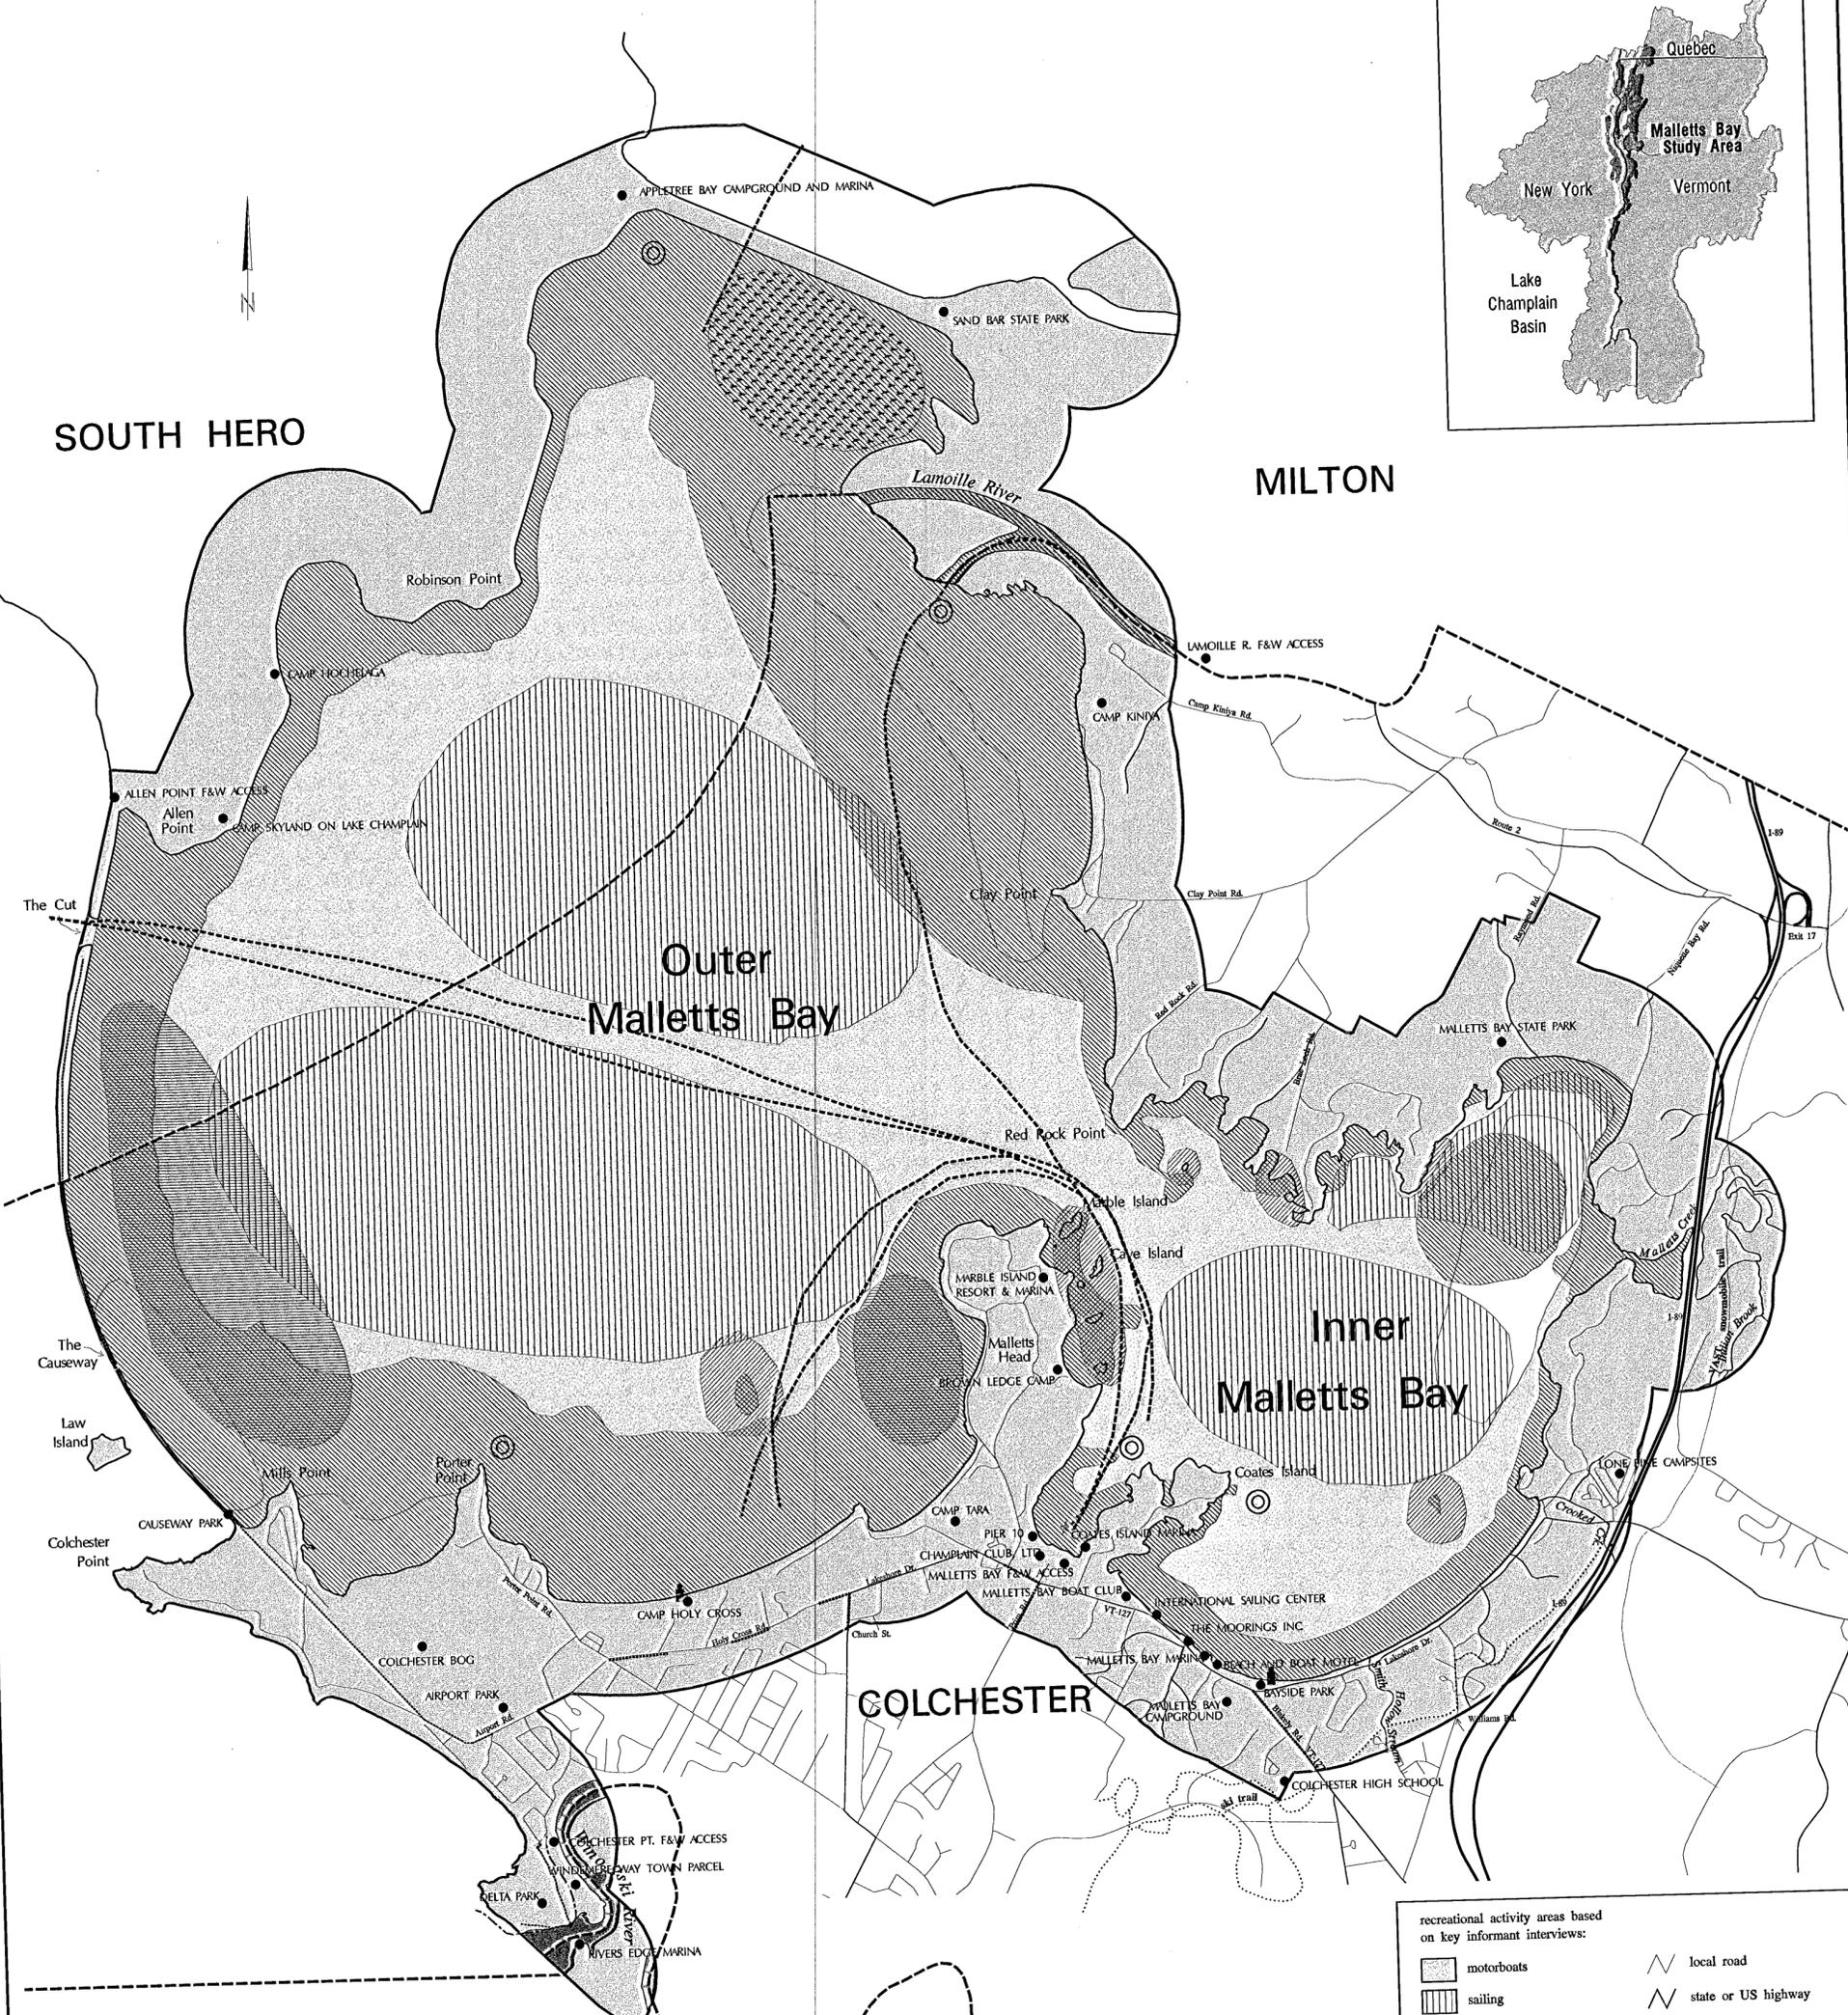

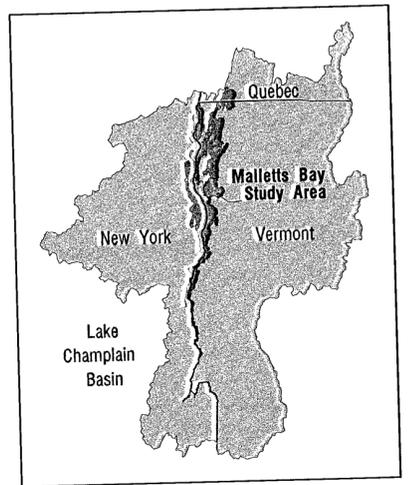

scale = 1: 15,000

- local road
- state or US highway
- interstate highway
- study area boundary
- town boundary
- shoreline
