CWD Drinking Water and COVID-19 (Coronavirus)

March 20, 2020

Champlain Water District (CWD) which supplies the water to Fire District 2 utilizes a multi-barrier approach to water treatment, including optimized filtration and disinfection. These processes are effective in removing and inactivating viruses, including COVID-19, and result in a safe and reliable water supply as required by existing State and Federal drinking water standards. Connected users should continue to use and drink water from their taps as usual.

ANNOUNCEMENT RE: COVID-19

March, 18, 2020

In the best interest of our customers, employees and the community around us amid public health concerns regarding the Coronavirus Pandemic, Colchester Fire District No.3 has made the decision to close the office to the public. Effective immediately.

Payments can be made by using the drop box in our front door. All current service orders will be cancelled and rescheduled at a later date. Emergency services will be remain 24/7.

The safety and health of our customers, employees and the protection of our entire community remains our primary concern at CFD#3. With the heightened awareness of the ongoing developments of the COVID-19 pandemic, we are monitoring the situation with thanks to the information provided by the World Health Organization and the CDC as well as public health officials and experts. We apologize for any inconvenience this may cause you.
